

[PHOTO SET]  
PROJECT

This project is based on the idea of making exclusive photo shootings of *Taz di Bleu* products in the stunning locations of some of the best and glamorous Hotels and Resorts in the world. These shootings are a unique opportunity to study the visual and emotional impact that our products can arouse, directly in the location where they will be showcased. This is an innovative project that will enable us to examine even the smallest details that can make a difference and that can turn the Guest experience into an unforgettable one!

*"Every shoot is a window over luxury and elegance and it enhances the exclusivity of our collections".*

Our warmest **"Thanks!"** to *Modica Beach Resort* team for taking part in our **"Photo Set Project 2018"**.

**Modica Beach Resort**, located in the beautiful **Marina di Modica**, in the South of Sicily, has a wide private beach, an underground parking lot and a relaxing area with gazebos, restaurant and beach bar, and a meeting room. Every detail is studied to deliver the highest possible comfort.
